

Guidelines for posters (including poster proposal, digital poster if any, material poster if any)

When writing your poster proposal, we recommend that you keep in mind the following criteria:

1. Quality of the research in terms of theoretical and methodological aspects
2. Originality of the work presented
3. Added value of the research in terms of “closing a gap” in knowledge within mathematics education research
4. Poster Presentation:
 - a) Accessibility for an international audience
 - b) Appealing structure
 - c) Readability - Overall appearance

About digital posters: Digital posters can be designed with different presentation software; please send them only as pdf files.
